

Recycled Can Bird Feeder

You will need:

- Used tin can
- Plastic lid (on some coffees or you can get them for pet food)
- Can opener
- Craft paint
- Paintbrush
- Scissors
- Duct tape
- Yarn
- Birdseed

Step 1

Clean and open your tin can with a can opener.

Step 2

Cut the coffee can's plastic lid in half.

Step 3

Paint your coffee can lid halves. You can paint them whatever colour you like! Let dry

Quick Tip!

If you don't have one of these lids, you can use masking tape

Step 4

Decorate your can with colourful duct tape. Tips: Layer the tape on top of each other to create different widths. You could also add stickers or draw on pictures with markers.

Step 5

Cut yarn or ribbon at your desired length. Thread it through your can. Place the half lid on either side of the can.

Step 6

Fill your can with birdseed and hang outside.
